Website Care Plans.

# Website Care Plans.

## Security Essentials - £40.00 + VAT per month

This includes all WordPress and Plugin updates, back-ups every 12 hours and if an update breaks something we will fix it at no extra cost.

Also included in this package:

- Up time monitoring
- Daily backups
- Monthly visual inspections
- Monthly reports

We also include up to 15 minutes per month for support requests with additional time billable at £35.00 per hour with a minimum charge of 15 minutes per request. Unused time does not roll over.

## Managed Website - £60.00 + VAT per month

This includes everything in Security Essentials but with an hour each month for support technical changes on the site.

Unused time does not roll over and you can make as many requests as they like per month with only the time taken to apply the update taking from the hour with no minimums. Additional time can be purchased as a one-off at £35.00 per hour or if more time is needed every month an hour can be added to the care plan and quoted at the time.

Any updates required as part of fixing a problem caused by a security update will not count towards the 1 hour for your change requests.

In addition to the above, we also include:

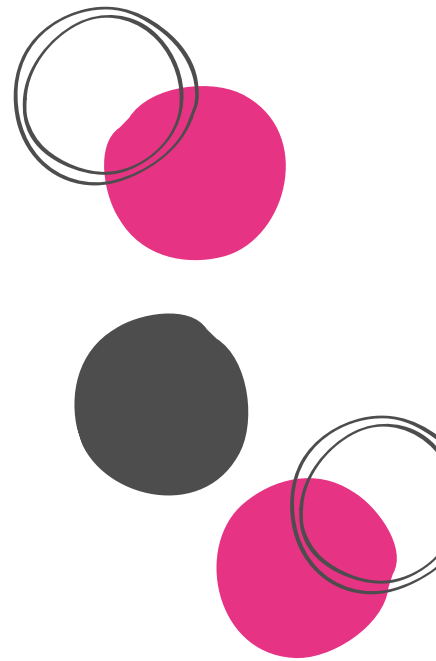

- Performance monitoring
- Daily malware scanning

## Managed E-commerce - £80.00 + VAT per month

Managed E-Commerce is the next step up for e-commerce websites with everything included with Managed Website as well as:

- Hourly backups
- Weekly visual inspection
- Priority requests will be handled within 8 business hours

**All website care plans include annual hosting at £150 + VAT per annum**
